ABOUT ME

I am currently in the last year of the Computer Systems Engineering Technology Co-op program at College of the North Atlantic.

I am seeking full time employment to gain practical and professional experience. I am particularly eager to learn all I can about web applications and mobile applications as this is what I am passionate about.

WORK EXPERIENCE

JANUARY 2020 - MAY 2020
INMARSAT
INTEGRATIONS WORK TERM STUDENT

Designed and built a user interface for a micro service that will be deployed to Inmarsat employees. The user interface was created using HTML, CSS, Bootstrap and Javascript/jQuery connected to a REST API. Assisted with implementing continuous integration improvements for Jenkins builds. Also gained knowledge and worked with Jira, Openshift, IntelliJ IDE, Amazon Workspaces, Git and GitHub version control. Participated in Agile software development practices and working in a micro-service environment.

MAY 2019 - AUGUST 2019
HUSKY ENERGY
INFORMATION SERVICES SERVICE DESK STUDENT

Responsible for receiving intake of demand from diverse client base, registering tickets in management system and managing the ticket life cycle. Also assisted with facilities moves, deploying new PC's and upgrading and installing software.

JUNE 2017 - MARCH 2018
CHIMO CONSTRUCTION LIMITED
PROJECT COORDINATOR

Assisted with completion of design/build and multidisciplinary tender packages and operations manuals. This included quantity takeoffs, estimates, schedules as well as correspondence with various suppliers, contractors subcontractors and clients.

SKILLS

HTML5/CSS3

PHP

JAVASCRIPT/JQUERY

ANDRIOD STUDIO

C++

OO PROGRAMMING

JAVA

MYSQL/MYSQL WORKBENCH
